## ABOUT ME

Hi. My name is Tomás and if there is something I hate more than self-praise, it is falling into cliché or hackneyed phrases. However, this does not mean that something ceases to be true, therefore, it is with some discomfort that if I had to choose a word to describe myself it would be

## SKILLS

HTML, CSS, JavaScript, Java

Front-end: React js, React Native

Back-end: Node js, Express js, SpringBoot

Databases: MongoDB, MS SQL SERVER, MySQL

Git

Scrum

## LANGUAGES

Spanish

English

German

"passionate". The passion and inclination to give my best covers every aspect of my life, from the simplest tasks, such as changing a light bulb or mounting a shelf, to more complex tasks such as programming. This passion is constantly fueled by the very nature of the discipline: there is always something new to learn and the work itself moves you to want to be better
